### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Gerry Gressel on August 25, 2005.

The application has been amended as follows:

In claim 5, line 6 "a processor for calculating" has been deleted and -- a processor programmed to calculate -- has been inserted.

In claim 11, line 12 "a processor for calculating" has been deleted and -- a processor programmed to calculate -- has been inserted.

In claim 11, line 13 "processor also for updating" has been deleted and -- processor also programmed to update -- has been inserted.

### ***Reasons For Allowance***

The prior art of record does not disclose or fairly suggest a medical treatment system with an optical fiber including a temperature sensor, processor and memory, the processor programmed to calculate the temperature from the temperature sensor, said temperature used to determine if a usage limit stored in memory has been exceeded and disabling an energy source if a limit is exceeded. Prior art teaches the use of number of cycles, power limits and total use times, but does not teach using the fiber temperature as a determinate of usage limits.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the

issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
